"Since we knew our son was well prepared for his bar mitzvah, our concerns focused on the next single most important thing - the catering. When Jackie Panigel of Stefano's came to us, he was full of excitement about the opportunity to tackle the theme that we had chosen. Jackie was well prepared with ideas and suggestions to make sure that we would have a successful party. He assured us that the food would be good, plentiful and served without any glitches.

It has been our experience that you have to stay on top of the caterer to make sure that they do not drop the ball. In this situation, the reverse was true. Jackie was in constant contact with us to handle changes that we made to the original plan. Jackie far exceeded our expectations. The proof was all the favorable comments that we received for weeks afterwards."

Gershon & Fran Green

"We have used Stefano's for my son's bris as well as other important family occasions. Every time we use Stefano's, the events were wonderful, the food was delicious and nicely presented and I received many compliments from my guests on my choice of caterers. Thank You Stefano's!"

Dr. Dovid Hirsch

"When you are planning a party, there are always so many things to worry about. When I use Stefano's, I know I won't have to worry about the food - the most important part of any party. Stefano's is quality food & quality service at affordable prices."
